#### ASSIGNMENT OF RIGHT TO INDEMNITY

17. The insured person may assign all or part of his right to indemnity under this contract in respect of the insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

- (a) the assignment is made on a form provided by the Commission; and
- (b) the Commission consents thereto in writing.

#### NOTICE OF LOSS OR DAMAGE

18.—(1) Where loss or damage to the insured crop results from one or more of the perils insured against and the insured person intends to abandon or destroy the insured crop, or to replant or use the planted acreage for another purpose, the insured person shall notify the Commission in writing of such intention and shall take no further action without the consent in writing of the Commission.

(2) Where loss or damage to the insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within twenty-four hours of such time.

(3) Where loss or damage to the insured crop results from one or more of the perils insured against and it appears, or ought reasonably to appear to the insured person at any time after planting and before the completion of harvesting of the insured crop that the potential production of the insured crop has a value less than the total insured coverage, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(4) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of the insured crop,

- (a) the total gross value of the insured crop as evidenced by the processor's statement of production is less than the total insured coverage; and

the insured person shall notify the Commission in writing forthwith.

(2) An appraisal made under subparagraph 1 shall not be taken into account in the final adjustment of loss where the insured person harvests the appraised acreage.

ADJUSTMENT OF LOSS

21.—(1) The indemnity payable for loss or damage to the insured crop shall be determined in the manner prescribed by this contract.

(2) The Commission may cause the production of the insured crop to be appraised by any method that it deems proper.

(3) No indemnity shall be paid for a loss in respect of the insured crop unless the insured person establishes,

- (a) the total gross income obtained from the insured crop for the crop year; and
- (b) that the loss in income or part thereof resulted directly from one or more of the perils insured against.

(4) Where a loss resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss that resulted from the cause of loss not insured against, and the indemnity payable by the Commission under this contract shall be reduced accordingly.

PROOF OF LOSS

22.—(1) A claim for indemnity in respect of the insured crop shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than sixty days after,

- (a) the completion of harvesting of the insured crop; or
- (b) the end of the crop year,

whichever is the earlier.

(2) Subject to subparagraph 3, a claim for indemnity shall be made by the insured person.

- (3) A claim for indemnity may be made,
  - (a) in the case of the absence or inability of the insured person, by his agent; or
  - (b) in the case of the absence or inability of the insured person or on his failure or refusal to do so, by an assignee under an assignment made in accordance with paragraph 17.

(4) Where required by the Commission, the information given in a proof of loss shall be verified by statutory declaration.

ARBITRATION

23. Where the Commission and the insured person fail to resolve any dispute respecting the adjustment

of a loss under this contract, the matter shall be determined by arbitration in accordance with the regulations.

TIME FOR PAYMENT OF INDEMNITY

24.—(1) No indemnity under this contract becomes due and payable until,

**TOTAL GUARANTEED PRODUCTION**

4. The total guaranteed production is the guaranteed production per acre determined in accordance with the plan multiplied by the number of acres seeded to onions.

**INDEMNITY**

5.—(1) The maximum indemnity payable for a loss in production of onions is the amount obtained by multiplying the total guaranteed production by the established price prescribed by the plan.

(2) For the first year in which a contract of insurance is in effect, with respect to any Stage, no indemnity is payable in respect of the first 5 per cent of the insured acreage.

(3) For subsequent years in which a contract of insurance is in effect with the insured person,

- (a) the deductible acreage shall increase by 5 per cent for each claim year to a maximum of 20 per cent; and
- (b) the deductible acreage shall decrease by 5 per cent for each no claim year immediately following two consecutive no claim years to a minimum of 5 per cent.

**HARVESTING OF PLANTED ACREAGE**

- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The harvesting referred to in subparagraph 1 shall be completed not later than the 31st day of October or such other date as may be determined from time to time by the Commission.

## EVALUATION OF LOSS

11. For the purposes of determining the loss in production of onions in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 12, 13, 14 and 15.

## STAGE 1

12.—(1) Stage 1 comprises the period from the date on which the planting of acreage to onions is completed to and including the 1st day of July in the crop year.

(2) When loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the replanting of the damaged acreage, provided that the replanting is completed not later than the 25th day of May; or
- (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage.

(3) Where the damaged acreage is replanted to onions in accordance with clause *a* of subparagraph 2, the Commission shall pay an indemnity,

- (a) for onions grown from seed of \$100 for each acre replanted; and
- (b) for onions grown from sets of \$200 for each acre replanted,

and the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the Commission shall pay an indemnity,

- (a) for onions grown from seed of \$100 per acre; and
- (b) for onions grown from sets of \$200 per acre,

and the contract of insurance shall terminate with respect to such acreage.

(5) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage, and in such case, no further indemnity shall be payable in respect of the damaged acreage.

## STAGE 2

13.—(1) Stage 2 commences on the 2nd day of July in the crop year and, with respect to any part of the planted acreage, ends,

- (a) for onions grown from seed on the 1st day of September; and
- (b) for onions grown from sets on completion of harvesting.

(2) Where loss or damage occurs in Stage 2, the Commission upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall,

- (a) for onions grown from seed, pay an indemnity of \$200 for each acre damaged and subsequently destroyed; or
- (b) for onions grown from sets, determine the number of damaged acres and the potential production thereof.

(3) Where, in the case of onions grown from sets,

- (a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or
- (b) the harvesting of any planted acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the amount by which the guaranteed production for the damaged acreage exceeds the potential production determined therefor by the established price per bag.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

## STAGE 3

14.—(1) Stage 3,

- (a) for onions grown from seed, commences on the 2nd day of September in the crop year and, with respect to any part of the planted acreage, ends with the completion of harvesting of such part; and

(b) for onions grown from sets, applies to planted acreage with respect to which harvesting has been completed.

(2) Where, in the case of onions grown from seed, loss or damage occurs in Stage 3, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

- (3) Where,
- (a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or
  - (b) the harvesting of any planted acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the amount by which the guaranteed production for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor by the price per bag.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where, in the case of onions grown from sets, the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bag.

STAGE 4

15.—(1) Stage 4 applies to acreage planted to onions grown from seed with respect to which harvesting has been completed.

(2) Where the actual production of the acreage so harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bag.

FINAL ADJUSTMENT OF LOSS FOR TOTAL PLANTED ACREAGE

16.—(1) The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all Stage 1, Stage 2, Stage 3 and Stage 4 loss calculations applicable to such acreage, but subject to subparagraph 2, where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per bag.

(2) Notwithstanding subparagraph 1, no indemnities paid in Stage 1 with respect to onions grown from sets or paid in Stage 1 or Stage 2 with respect to onions grown from seed shall be subject to reduction under this paragraph.

(3) No more than one indemnity payment with respect to the same planted acreage shall be paid in any one of the Stages and in no case shall indemnity be paid for acreage in excess of the total insured acreage.

DAMAGE AFTER HARVEST

17. No indemnity shall be paid in respect of any loss or damage suffered by the insured crop after combining and in no case shall any indemnity be paid with respect to onions in storage.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

18.—(1) Where the actual planted acreage of onions in a crop year is less than the planted acreage declared on the final acreage report, the total guaranteed production and the amount of insurance shall shall be reduced proportionately.

(2) Where the actual planted acreage of onions in a crop year exceeds the planted acreage declared on the final acreage report, the guaranteed production shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

(2) For the first year in which a contract of insurance is in effect, with respect to any Stage, no indemnity is payable in respect of the first 5 per cent of the insured acreage.

(3) For subsequent years in which a contract of insurance is in effect with the insured person,

- (a) the deductible acreage shall increase by 5 per cent for each claim year to a maximum of 20 per cent; and
- (b) the deductible acreage shall decrease by 5 per cent for each no claim year immediately following two consecutive no claim years to a minimum of 5 per cent.

(4) Notwithstanding subparagraphs 2 and 3, the deductible acreage in respect of a claim shall not be less than the minimum percentage of deductible acreage under subparagraphs 2 and 3 applied to the total acreage.

#### HARVESTING OF PLANTED ACREAGE

11.—(1) All acreage planted to potatoes in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose;
- (b) the abandonment or destruction of the insured crop or any part thereof; or
- (c) the digging of the insured crop or any part thereof before the earliest date for harvesting prescribed by subparagraph 2.

(2) The harvesting referred to in subparagraph 1 shall be commenced not earlier than,

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 3, no indemnity shall be paid in respect of the unharvested acreage.

(5) Where, with the consent of the Commission under clause *c* of subparagraph 1, any planted

acreage is dug before the earliest date for harvesting prescribed by subparagraph 2, the Commission shall determine the potential production of such acreage and such potential production,

- (a) shall be deemed to be not less than the area average yield for such acreage; and
- (b) shall be taken into account in the final adjustment of loss.

#### EVALUATION OF LOSS

12. For the purposes of determining the loss in production of potatoes in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 13, 14, 15 and 16.

#### STAGE 1

13.—(1) Stage 1 comprises the period from the date on which the planting of acreage to potatoes is completed to and including,

- (a) for early potatoes, the 30th day of April; and
- (b) for late potatoes, the 15th day of June.

(2) Where loss or damage occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the replanting of the damaged acreage, provided that the replanting is completed not later than,
  - (i) for early potatoes, the 30th day of April, and
  - (ii) for late potatoes, the 15th day of June; or
- (b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage.

(3) Where the damaged acreage is replanted to potatoes in accordance with clause *a* of subparagraph 2, the Commission shall pay an indemnity of \$60 for each acre replanted and the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the Commission shall pay an indemnity of \$60 per acre and the contract of insurance shall terminate with respect to such acreage.

(5) Notwithstanding any application made in writing by the insured person under this paragraph, the

Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage, and in such case, no further indemnity shall be payable in respect of the damaged acreage.

#### STAGE 2

##### 14.—(1) Stage 2 commences,

(a) for early potatoes, on the 1st day of May; and

(b) for late potatoes, on the 16th day of June,

and for any part of the planted acreage ends,

(c) for early potatoes, on the 1st day of July; and

(d) for late potatoes,

(i) in the counties of Essex and Kent, the 15th day of August, and

(ii) in any other county or in a regional municipality or territorial district, the 1st day of September.

(2) Where loss or damage occurs in Stage 2, the Commission upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall pay an indemnity of \$120 per acre and the contract of insurance shall terminate with respect to such acreage.

(3) Where the damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

#### STAGE 3

##### 15.—(1) Stage 3 commences,

(a) for early potatoes, on the 2nd day of July; and

(b) for late potatoes,

(i) in the counties of Essex and Kent, on the 16th day of August, and

(ii) in any other county or in a regional municipality or territorial district, on the 2nd day of September,

and for any part of the planted acreage ends with completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 3, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

##### (3) Where,

(a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or

(b) the harvesting of any planted acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the amount by which the guaranteed production for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor by the price per hundredweight.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

#### STAGE 4

16.—(1) Stage 4 applies to acreage with respect to which harvesting has been completed.

(2) Where the actual production of the acreage so harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per hundredweight.

#### FINAL ADJUSTMENT OF LOSS FOR TOTAL PLANTED ACREAGE

17.—(1) The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all Stage 1, Stage 2, Stage 3 and Stage 4 loss calculations applicable to such acreage, but, subject to subparagraph 2, where,

(a) the actual production of any harvested acreage; or

(b) the potential production of,

(i) any unharvested acreage, and

(ii) any acreage dug before the earliest date for harvesting prescribed by subparagraph 2 of paragraph 11,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per hundredweight.

(2) Notwithstanding subparagraph 1, no indemnities paid in Stage 1 or Stage 2 shall be subject to reduction under this paragraph.

(3) No more than one indemnity payment with respect to the same planted acreage shall be paid in any one of the Stages and in no case shall indemnity be paid for acreage in excess of the total insured acreage.

DAMAGE AFTER HARVEST

18. No indemnity shall be paid in respect of any loss or damage suffered by the insured crop after harvest and in no case shall any indemnity be paid with respect to potatoes in storage.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

19.—(1) Where the actual planted acreage of potatoes in a crop year is less than the planted acreage declared on the final acreage report, the total guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual planted acreage of potatoes in a crop year exceeds the planted acreage declared on the final acreage report, the guaranteed production shall be reduced proportionately.

(2) Where an insured person commences an action referred to in section 36 of the Act, his solicitor shall so inform the General Manager forthwith after issuing the writ and shall act as solicitor for the Plan for the purpose of this section unless notified by the General Manager in writing that he is no longer acting for the Plan and in such case the General Manager may appoint another solicitor to represent the Plan.

(3) Where the insured person and the General Manager cannot agree as to any offer of settlement or where the solicitor receives conflicting instructions from the General Manager and the insured person, the solicitor may so inform the General Manager in writing and thereupon shall cease to act for the Plan and the General Manager may appoint another solicitor for the purpose of this section.

(4) Where the General Manager appoints a solicitor under subsections 2 or 3, the solicitor may participate in the action as fully as if he were acting for a plaintiff and shall be at liberty to appear at the trial of the action and take part therein in such manner and to such extent as the trial judge may direct but, if, upon the application of the defendant or the insured, it appears that such participation may embarrass or delay the trial of the action, the court may order separate trials, or make such other order as may be expedient.

(5) Where the insured person and the General Manager cannot agree as to any offer of settlement in the action the insured person may make a settlement of his claims and thereafter the General Manager shall have the conduct of the action.

(6) Subject to subsection 8, where an insured person obtains a final judgment in an action in which he includes a claim on behalf of the Plan, the Plan shall bear the same proportion of the taxable costs otherwise payable by the insured person, whether on a party and party basis or on a solicitor and client basis, as the recovery made on behalf of the Plan bears to the total recovery of the insured person in the action or, where no recovery is made, as the assessed claim of the Plan bears to the total damages of the insured person assessed by the court.

(7) Where a claim is settled, the Plan shall bear the same proportion of the taxable costs otherwise payable by the insured person as is set out in subsection 6 in respect of a recovery made.

(8) The costs for which the Plan may be liable to bear a portion under subsection 6 are the costs of bringing the action to the conclusion of the trial only and do not include the costs of any other proceeding without the written consent of the General Manager.

(9) If no action has been commenced by an insured person for the recovery of damages arising out of injury or disability within eleven months of the last act or omission that caused or contributed to the injury or disability, or thirty days before the expiration of the limitation period for the action, whichever occurs first, the General Manager,

(a) after notice thereof to the insured person, may commence an action in the name of the Plan or in the name of the insured for damages in the amount of the costs of insured services; and

(b) may effect settlement of the claim without prejudice to the right of the insured person to commence an action to recover for his injuries or other damages.

(10) The insured person, at any time prior to the trial of an action commenced under clause a of subsection 9, may, subject to the rules of court, join in such action any additional claims arising out of the same occurrence and thereafter the insured person shall have the conduct of the action as if he had commenced it under section 36 of the Act.

(11) Where the insured person is an infant or under other disability or has died, the General Manager may commence an action in the name of the Plan for the recovery of the cost of insured services rendered to him and, in that event, shall forthwith give notice of the institution of such action to the parent or guardian of the infant, or to the committee or guardian of the person under disability, or to the personal representative, if any, of the deceased person, and subsections 9 and 10 apply *mutatis mutandis* to such action. O. Reg. 361/72.

Parcost C.D.I.

Made—July 19th, 1972.

Filed—July 24th, 1972.

## REGULATION MADE UNDER THE PHARMACY ACT

### PARCOST C.D.I.

1. For the purposes of the Act, the Parcost C.D.I. is the comparative drug index contained in the Schedule hereto. O. Reg. 361/72, s. 1.

### Schedule

### PART I

#### INTRODUCTION

1. The Parcost Comparative Drug Index has been compiled by the Ministry of Health and its advisory committee, "The Drug Quality and Therapeutics Committee".

2. The Index is a compilation of pharmaceutical preparations, arranged in comparative categories and groupings according to the nature, strength and dosage form of the active therapeutic constituent.

3. The products listed in the Index meet recognized standards of quality required by the Drug Quality and Therapeutics Committee.

4. Except where indicated otherwise by the words "not interchangeable" the Drug Quality and Therapeutics Committee considers those products listed in the same bar chart to be interchangeable pharmaceutical products.

5. The cost listed in the Index is derived from a price submitted by the pharmaceutical manufacturer or supplier and is based on the package size listed for the product in the C.D.I., and represents the maximum price the pharmacist or hospital should pay for the product.

6. Manufacturers distributing primarily direct to the pharmacy are indicated by a symbol (D) after the firm name in the MANUFACTURERS' PRODUCT LISTS SECTION.

7. The cost of prescribed pharmaceutical preparations to the patient is composed of two major components:

(i) Product cost to the pharmacist.

(ii) Pharmacist's professional fee.

For the purposes of section 52 of this Act, the product cost-plus professional fee method of pricing a prescription shall be used and the prescription fee so used shall not exceed a maximum of \$2.20.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Queen's Printer and Publisher for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvement would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.
